

## Just Around the Corner...for Girls

4<sup>th</sup> & 5<sup>th</sup> Grade Girls and an important adult in their life are invited to attend...

- A maturation program to help answer questions that girls might have about their growing and changing bodies.
- The session will cover physical and emotional changes that occur in girls during puberty, including menstruation.
- A short video will be followed by a lively discussion session.

Local school districts currently present a maturation/reproductive health program for elementary students during their regular class time. Many families have shown interest in starting this education in the 4<sup>th</sup> grade as some girls begin the process of puberty at this age or wanted to do a program together. In response to these requests, the MISD will offer this class to those interested girls and their parent/guardian.

*This class is not intended to replace any current reproductive health programs, which will continue as always. Open to any adult in the community and any 4<sup>th</sup> and 5<sup>th</sup> grade girl in the community.*
